

Fluoronetic Autosampler

Ultraclean PTFE autosampler

The Cleanest Most Chemically Inert Autosampler

Ultraclean Enclosed Autosampler

- Ultraclean environment with small footprint
- Four easy-access doors and illuminated interior
- Clean air shower and ULPA filter options
- Integrated valve options for high-throughput
SampleSense *FAST* and prep*FAST*

Inert Fluoronetic Drive

- Magnetically coupled linear drive
- 100% fluoropolymer movement
- No exposed metal in the sample area
- Chemically resistant for long lifetime

DXCi Autocorrecting Autosampler

- AutoAlign Arm
- Automatically goes to the correct sample location every time with microplate precision – even when temporarily obstructed (obstructions logged)
- Available in two or four large rack capacity models

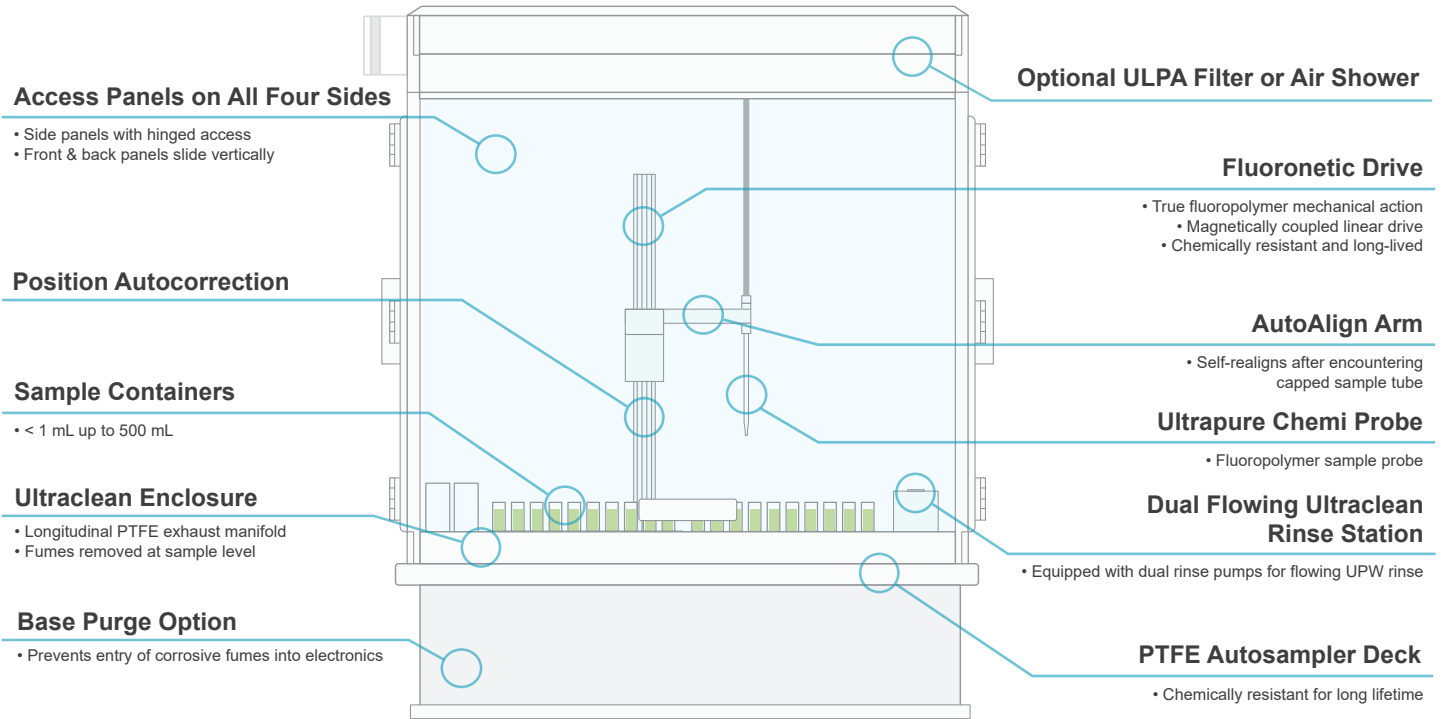

2FNXS Enclosed Autosampler

**The ideal enclosed autosampler for high purity labs with
low to sub-ppt requirements and/or highly corrosive samples**

Enclosed Fluorometric Autosampler Features Diagram

Fluorometric Autosampler

The most **Chemically Inert
Autosampler** *ever made*

includes **Powerful, Autocorrecting
Technology**

Elemental Scientific
